

## INTERNATIONAL SOPOT YOUTH CONFERENCE

### Entitled: WHERE THE WORLD IS HEADING

The Sopot Science Association (SSA) welcomes contributions to the first edition of the International Conference entitled Where the World is Heading. This conference is the continuation of the long tradition of the Sopot Youth Forum. Since 2008 over 180 scientists from all over Poland have presented their work during the Forum.

We invite young scientists or science enthusiasts, university students, Ph.D. students and young doctors to present their work, visions, opinions, and thoughts. The Sopot Youth Conference consists of two thematic blocks: humanities and social sciences and the second one-natural and physical sciences. **Both oral (15 minutes) and poster presentations are welcome.**

Due to the multidisciplinary character of the Sopot Youth Conference abstracts and presentations should be prepared in an intelligible manner. **The Conference language is English.**

**Just like in previous editions this year the best presentations will be granted FINANCIAL AWARDS.**
